All,

There are currently five validated reports in the T4-Validated folder: 4 TestAmerica and 1 PACE. All have been reviewed/revised and are ready to go. I am working on downloading the associated EDDs and should have them all within the hour. Test America's EDDs are in the Sedd 2a format. PACE's are excel spreadsheet. ESAT will need to review these to apply the appropriate qualifiers where needed and then they will be ready also.

Maybe we should meet for few minutes to clarify everything. Let me know.

Since I am going to upload the reports for the data users I need to make sure I am pulling the correct files. I'll wait to hear from you.

Thanks!

Cindy,

Several of the reports were recently revised. I will check with ESAT to see if they have replaced the reports with the corrected reports. I will have ESAT notify all when the revised reports have been posted. This change was requested by the EPA QA oversight reviewers. ESAT has just identified another report requiring the same changes as determined by QA be made before it is finalized.

Thanks!!!!!!!

There are multiple files located in the T4-Validated directory. Before I upload any files I will need confirmation that these are the final reports to be sent out.

Also, will there be any EDDs submitted for the T4 results? The user needs to enter the information into Scribe so an EDD is preferred.

Curious, for the TestAmerica data ESAT validated from the "historical set" did they note anything about a lack of confirmation in the validation report?
